

Central Tube Cable

Features of design:

- Central tube protects the primary coated fibers
- Strength member element distributed around the core of the cable

Features of product:

- Small diameter, light weight and easy installation
- Easy fiber access reduces preparation time for direct termination
- Excellent optical, mechanical and environmental performance
- Suitable for a wide variety of deployments, including underground conduit and rugged direct burial applications
- Excellent environmental properties – operational temperature range $-40^{\circ}\text{C} \sim -70^{\circ}\text{C}$
